Thank you for submitting this form. We receive many more applications than we are able to use, which means we cannot honour all requests. If you don't receive a student placement, it is because we were unable to make a suitable match in your particular location, grade level or subject area. Consideration is also given to "clustering" within schools, i.e. we prefer more than one student teacher in a school.

We appreciate your willingness to sponsor a student teacher. You will receive confirmation if we place a student with you.
